

## POINT OUT DEFECTS IN PRESENT PLAN

OUR CURRENCY SYSTEM CRITICIZED BY JACOB L. GREENE.

Its Foundation Is On Debt—Stability of Value He Asserts, Is the Result to Be Aimed At—Canadian Banking System Praised—Government Should Redeem Silver Certificates.

Washington, Nov. 29.—Jacob L. Greene, president of the Connecticut Mutual Life Insurance company of Hartford, has sent a long letter in answer to the questions propounded by the monetary commission. In part he says:

"The only redeeming feature of the present national banking currency is that it has established the fact that every bank note must pass current without a thought of discrimination. But this supreme advantage can be just as certainly and satisfactorily attained by a spontaneous and normal system of currency issue. The present scheme is unnatural in that it is not a true banking credit currency. It is not based upon commercial assets, but on a compulsory investment in government debt. It is not redeemable in actual dollars, but in the promise to pay dollars, and this latter fact in itself has been one of the most vicious influences of the greenback—the fact that it is a legal tender. To say that a man who has promised a dollar can rid himself of that promise by tendering not the dollar but another's promise of it, imports a standing falsehood into private contracts and destroys their sanctity, and this criticism applies also indirectly to the national banking currency. It rests upon debt. But the whole sentiment of our people is toward debt payment, and we cannot maintain a debt, paying interest thereon, for the purpose of basing currency upon it. This very operation has prejudiced the people against the banks, and until the greenback and the government bond bank note disappear before a currency representing growing wealth, and not debt, our currency and hence our business must remain the sport of political parties.

"The attainment of stability of value in such a banking currency is not impossible. It is the most simple thing in the world. To make the promise to pay a dollar really worth a dollar it is only necessary to place sufficient readily convertible property behind the promise. Because our largest experience of a bank currency of uniform value was had with one based on government debt, and because the variable values of bank issues in the anti-national bank days were due to uncertainty concerning the amount of property behind the notes, people have supposed that a bond deposit is necessarily incident to stability of the value of currency. In reality, however, a properly secured, instantly redeemable, elastic and adequate bank currency can be obtained by forcing all banks of issue to take national charters, and prohibiting note issues in excess of a certain percentage of capital, with an absolute first lien upon all the property of the bank, making noteholders preferred creditors and securing currency redemption on demand by the banks themselves, with government guaranty of the notes of failed banks. These conditions are exemplified in the successful working of the Canadian banking system, which is completely automatic in its working, responsive to the needs of trade, and furnishes currency the instant commerce demands it, redeeming it as fast as no longer needed.

"According to the latest returns, 77.4 per cent of our gold stock is in circulation, only 5.6 per cent is represented by certificates. Of our silver dollars only 12.4 per cent are in actual use, while 85.2 per cent are represented by certificates. If the greenbacks be retired, the gold held for their redemption will be paid out. At the same time, gold certificates should be called in, the gold held therefor paid out, and inasmuch as it is no part of the function of government to store and care for money, it should redeem its silver certificates, pay out as much silver coin as can be absorbed by commerce, and sell the rest, should there finally prove to be an unsalable residue, thus permitting it to become available to commerce through the coin itself, and through its use as a part of the assets of the banks. Only by these means can commercial and monetary questions be removed from political influence, and the government be freed from danger arising from commercial exigencies."

For Big Sunday Schools.

New York, Nov. 29.—The Rev. Dr. James A. Worden, superintendent of the Sunday school department of the Presbyterian church in this country, has begun a movement to celebrate the opening of the twentieth century. His idea is to recruit the Sunday school army of his church so that instead of 1,000,000 members, as at present, it will consist of a host of 1,500,000. He wants this work of enlisting the half million of re-enforcements completed by April 1, 1901, the beginning of the church year in the first year of the next century. He has worked out an elaborate plan and has urged the prosecution of a vigorous campaign throughout the Union for the next four years.

## MINERS WILL STAY OUT.

Strike at Star City and Hymers, Ind., Is for Blood.

Terre Haute, Ind., Nov. 29.—President Knight of the Indiana miners says the strikers at Star City and Hymers will remain out indefinitely to gain their point, and that the state labor commissioners, who were there Saturday were so told by all whom they met. Both mines are owned in Chicago, by the Harder & Hafer company. President Knight is calling upon the miners at work in the state to contribute to the support of the strikers, and says the response will be very generous.

The strikers at the Cabel mines in Daviess county, where negroes from Kentucky were given work, are finding employment in other fields in the state. Operators in this neighborhood are paying the expenses of the men to come to their mines, and a number have done so.

Phalen Deserts Luetgert.

Chicago, Nov. 29.—Attorney Albert Phalen has withdrawn from the Luetgert case. He ceased to be chief counsel for the sausage maker at 4 o'clock yesterday afternoon, at which time he notified his client that under no circumstances would he represent him further. The reasons for his withdrawal from the case are not stated. Lawrence Harmon is now Luetgert's chief counsel. He is about 40 years old, and has practiced law in Chicago for two or three years. He was formerly a judge in Peoria, Ill.

Rieger to Be Indicted.

Kansas City, Mo., Nov. 29.—As a result of investigations that have been conducted during the last six months by E. P. Moxey, confidential agent of Comptroller Eckels, the last-named official announces that he will ask that a special grand jury be called to indict President D. V. Rieger and Cashier R. D. Covington of the defunct Missouri National bank, which failed a year ago for nearly \$1,250,000. The charge will be misapplication of bank's funds in the purchase of bank stock in order to keep it at par.

Plea of Ex-Gov. Morton's Widow.

Terre Haute, Ind., Nov. 29.—The widow of ex-Senator Morton has written to the Grand Army posts here asking them to petition the board of regents of the Soldiers' monument at Indianapolis to restore the statue of Indiana's war governor and senator to the position it originally occupied in what was known as the governors' circle, and from which it was removed to the state-house grounds. Mrs. Morton says it should be immediately in front of the monument, especially as he was the first to suggest a soldiers' monument.

Working at Spring Valley.

Spring Valley, Ill., Nov. 29.—The fight in the northern district is over between miners and operators temporarily, and the battle-ground is shifted to Streator, where the officers of the miners' state organization have locked horns with A. L. Sweet, to compel him to recognize gross weight. The mines of the Spring Valley Coal company were at work Sunday, and coal was being hoisted at No. 1 shaft. The others are being put into readiness as fast as possible.

Hope to Get Indian Lands.

Guthrie, O. T., Nov. 29.—Hundreds of persons are arriving in Oklahoma, anticipating the opening of the new lands to settlement. Until congress acts, however, no lands will be opened. Owing to the Indian treaty complications in the Wichita reservation, great injury and distress would follow an opening at the present time. The Dawes commission Saturday began the work of preparing the rolls of citizenship in that reservation.

Storm's Havoc Near Liverpool.

London, Nov. 29.—A heavy north-west gale with terrific hail squalls has done much damage at Holyhead and near Liverpool. Many yachts and small vessels have been sunk at their moorings and some buildings have been injured. At Holyhead tugs and a lifeboat rescued with great difficulty the crew of the Nova Scotian bark, Alert, which was in danger of running on the rocks.

Badeni Gives Up the Struggle.

Vienna, Nov. 29.—Count Casimir Badeni, prime minister of Austria, has fallen. Emperor Francis Joseph has yielded to the storm and has accepted his unpopular premier's resignation. The reichsrath has been adjourned pending the formation of a new ministry.

Miles Wants a New Garrison.

Port Townsend, Wash., Nov. 29.—A telegram received here from Washington says that Major-General Nelson A. Miles has sent a letter to the secretary of war in which he recommends that Fort Townsend be occupied by troops immediately.

Mr. Sheehan in Need of Rest.

New York, Nov. 29.—John C. Sheehan, the Tammany leader, was said last night to be resting easily at his home in this city. The attending physicians said that Mr. Sheehan needed only a few days' rest, as his illness is not at all serious.

Narrowly Escaped Lynching.

Camden, N. J., Nov. 29.—John Brumpp, who claims to live in Philadelphia, narrowly escaped lynching at the hands of an angry crowd because of an attempted assault upon a mulatto girl Florence Pierce, 12 years of age.

## 'N HARD STRAITS UP KLONDIKE WAY

OFFICIALS URGE THE PEOPLE TO LEAVE DAWSON CITY.

Famine Is Threatened—Gold Seekers Urged to Hasten to Fort Yukon Where Food Exists In Abundance—Hungry Men Steal Provisions From Their More Fortunate Neighbors.

Dawson City, Oct. 15 (via Seattle, Wash., Nov. 29).—Famine and starvation are threatening the people of the Yukon river between Minook creek, Alaska, and Stewart river, Northwest territory. There are over 1,000 persons in Dawson City without provisions. An equal number, including women and children, are lying in tents, and a heavy snow is falling. Men are arriving at the rate of seventy-five a day, many of whom have less than half enough rations to last through the winter. Beans, flour, rice, bacon and other provisions are selling from \$1.25 to \$1.50 a pound. Jack Dalton of Juneau and one or two other stockmen arrived lately with a few hundred head of live stock and temporarily relieved the situation.

No power on earth can prevent a famine. The people appreciate it to the fullest extent. Caches are being robbed nightly. One man was detected in the act of stealing food and was shot through the leg. The wound may prove fatal. He was driven to desperation by hunger. A dozen men have been arrested for robbing caches.

The gold commissioner could not get enough provisions to feed his office force and was compelled to send several clerks and assistants down to Fort Yukon, where 1,000 tons of food is stored. The winter has commenced. On the Alaska side of the Yukon river there are fully 3,500 people, and there is less than 1,200 tons of provisions to feed them. The dominion police are sending scores of men down the river to Circle City and Fort Yukon to relieve the local situation. In Circle City a week or two ago two steamers, the P. B. Weare and the Bella, were stopped by thirty men armed with rifles and relieved of thirty tons of provisions. There is no concealing the true status of affairs. Before spring thousands of men and scores of women and children will be suffering from the pangs of hunger and disease.

Provisions will be needed in February and March to prevent great suffering. The commercial companies are doing what they can to relieve the situation by equalizing the division of food supply. Hundreds of men are in camp with a sack of flour each, forty pounds of bacon, twenty-five pounds of beans and five pounds of coffee to last until next June. No man can perform hard work on such meager food.

The people of the United States and Canada ought to send a relief expedition, headed by a hearty Alaska frontiersman like Jack Dalton, with food for the destitute, so as to reach here by February. The situation is appalling and can not be overdrawn or exaggerated. The Canadian authorities have issued bulletins urging the people to go to Fort Yukon for provisions. It is a sad prophecy to make that by May 1 hundreds of new graves will fill the little cemetery back of Dawson City, but it is being heard frequently. Hundreds of valuable claims which could not be bought a month ago for any price are now being traded for provisions, and men with any amount of property or money are sacrificing nearly all of their worldly possessions for food.

Must Pay \$100,000 in License.

Milwaukee, Nov. 29.—When Insurance Commissioner Fricke insisted on holding the Travelers' Insurance Company of Hartford for license fees and pushing the matter to a conclusion in the courts he builded better than few persons imagined. Under the ruling of the circuit court, which is based on decisions of the supreme court and therefore is not likely to be overthrown, the state's strong box will be made richer to the extent of over \$100,000.

Oklahoma Seeks Statehood.

Perry, Oklahoma, Nov. 29.—Congress will be asked to make Oklahoma a state at the coming session. The people of nearly every county in the territory are holding meetings and passing resolutions favoring immediate statehood. Oklahoma has over three hundred thousand population and her assessed amounts to nearly \$30,000,000. The advocates of statehood argue that nearly one-half of the states were admitted with less population and less wealth.

Praise the Autonomy Plan.

Madrid, Nov. 29.—A deputation of Cuban autonomist deputies waited upon Senor Sagasta, the premier, Saturday and congratulated him upon the sincerity of purpose evinced in the autonomy decrees. Senor Moret, the minister for the colonies, has received numerous dispatches from the provinces and from the Antilles congratulating the government.

Shipment of Gunpowder Seized.

London, Nov. 29.—Eight barges loaded with cases of gunpowder, falsely labeled "arms," have been seized by the customs officers in the Thames. They emanated from Russia and were about to be transferred to the steamer Beluchistan, for Persia. It is suggested that the ammunition was destined for the Afridis.

## TRADE THREATENED BY PROPOSED LAW

FRANCE SAID TO BE PLANNING TO BAR AMERICAN GOODS.

Duplicity Is Charged—While Working For Reciprocity At Washington French Statesmen Are Alleged To Be Forming Other Plans at Home—German Minister At Washington.

Washington, Nov. 29.—Information has reached the authorities here that France, while ostensibly engaged in negotiations with this government looking to the conclusion of a reciprocity treaty, is taking steps to place a prohibitory tariff upon a number of articles of American production.

A report received at the state department is to the effect that a bill is pending in the legislative assembly of France, which is being pushed toward passage, imposing a high duty upon certain products imported into France which will practically make that country a closed market so far as the United States is concerned. There is good reason to believe that the authorities will direct Ambassador Porter to make an earnest protest against the passage of the measure, and to explain wherein its provisions if enforced would injure the interests of the United States.

It is possible that the consideration of this bill by the French assembly may have the effect of causing the authorities here to go slow in concluding the reciprocity agreement under discussion. The department has not yet heard from Paris in regard to the proposition submitted that in exchange for a lower tariff to be imposed on French wines, etc., the French government shall "remove the prohibition now enforced with respect to the importation of American cattle."

There is reason to believe that unless this concession be given and the French authorities take steps to prevent the passage of the bill referred to, the reciprocity negotiations now in progress will fail. In such a case it is anticipated that the French government will retaliate by imposing the maximum tariff under its laws upon American products which now enjoy the benefit of the minimum tariff. As the number of these products is few, the authorities are not greatly disturbed over the possibilities growing out of a failure of the negotiations.

Dr. von Holleben, the new German minister to the United States, is expected to make representations to the state department in regard to tariff matters. Information has reached the department that the instructions given to Baron von Holleben contemplate the submission of several propositions to this government which have in view a reciprocity arrangement.

## FARMLAND, IND., IN FLAMES.

Fire Reported to Be Devastating the Little Town.

Muncie, Ind., Nov. 30.—At 12 o'clock Sunday night fire broke out in the heart of the town of Farmland, twelve miles east of Muncie. The entire business part of the town was destroyed, and the amount of loss cannot be estimated. Muncie was called on for protection and fire engines on flat cars left for the town at 1:30 a. m. Telegraphic communication is cut off and particulars cannot be secured.

The first started in the rear of Bob Meeks' drug store. It was destroyed, with G. B. Watson's grocery, Branson's hardware store and J. D. Davis' big general store. The new opera-house, postoffice and Big Four depot were also consumed. Farmland has 2,500 people, with only a hand chemical engine as protection from fire.

Murdered Woman's Body Found.

Chicago, Nov. 29.—The body of Mrs. Pauline Ballou Merry is lying in the county morgue, ghastly with three bludgeon wounds on the brows and a black thumb print at her throat. It was exhumed from a roadside ditch in Eighty-seventh street, near Western avenue, Sunday afternoon by policemen who were directed to the spot by Thomas Hickey, alias Daniel Ryan, one of the two men who saw Chris Merry murder the woman and who helped him bury her. All of the details of the crime are known to the police through the confession of Hickey, Merry, the murderer, and Smith, his accomplice, are still at liberty.

Hopeful of Annexation.

Washington, Nov. 29.—Lorin A. Thurston and William R. Castle, the special plenipotentiaries of Hawaii, who signed the annexation treaty for that government, are again in Washington to watch the course of events in the senate when the treaty comes up for ratification. They believe that the members of the senate and house who visited Hawaii last summer have found the same sentiment in favor of annexation which they have reported.

Weyler Arrives at Palma.

Palma, Island of Majorca, Nov. 29.—Lieutenant General Weyler, on the Montserrat, arrived here Sunday and was accorded an enthusiastic reception.

Opposed to Annexation.

San Francisco, Cal., Nov. 29.—Two full-blood and two half-blood Hawaiians arrived here yesterday on their way to Washington to oppose the annexation of the islands to the United States.

## OUR GREEN COUNTY EDITION

Gazette Will Send 3800 Papers to Monroe, Brodhead and Albany.

An illustrated Green county edition of the Jadesville Gazette is being prepared and will be issued Wednesday, December 15. It will be placed in 3800 families in Monroe, Brodhead, Albany, Juda and the towns tributary. All the names not already on our subscription list have been reviewed carefully and are thoroughly representative.

The edition will contain many columns of news and descriptive matter from Green county. Half tone engravings of public buildings, business blocks and residences are being made especially for illustrating this edition, and Gazette representative thoroughly familiar with the field are preparing matter.

Advertising space in the edition will be limited, as the time required for making and printing half tone cuts restricts the issue to sixteen pages. Those wishing space are asked to notify Gazette representatives as early as possible.

## TYPHOON KILLS THOUSANDS.

Particulars of an Unprecedented Disaster in the Philippines.

San Francisco, Cal., Nov. 29.—The typhoon which swept over the Philippine islands Oct. 6 was the cause of one of the worst disasters that has been reported from the southern coast in many years, if not in the history of that part of the world. Several towns were swept and blown away. Fully 400 Europeans were drowned, and it is estimated that 6,000 natives perished. The hurricane struck the island at the Bay of Santa Paula in the province of Samar. It devastated the entire southern part of the island and cut off communication with the rest of the world for two days. Oct. 12 the hurricane reached Leyte, and struck the capital of Tacloban with great fury. In less than one-half hour the town was a mass of ruins. Four hundred of the natives were buried beneath the debris of wrecked buildings, and 126 corpses of Europeans were recovered from the ruins when the native authorities instituted a search for the dead. Reports from the southern coast were received which claimed that a score of small trading vessels and two Sydney traders were blown ashore and the crews drowned. The sea at Samoa swept inland nearly a mile, destroying property valued at several million dollars and causing many deaths among the natives.

## GERMANY MUST BE MODERATE.

Uncle Sam Will Not Tolerate Undue Harshness Toward Haiti.

Berlin, Nov. 29.—The state department at Washington has requested United States Ambassador White to ascertain exactly the intentions of Germany with respect to the claims of Herr Lueders, whose recent imprisonment in Haiti has caused friction between the German and Haitian governments. Mr. White has also been instructed if any schemes of annexation exist or if there is an intention to make an excessive demonstration with a view of unduly punishing Haiti to intimate to the German government that the United States could not tolerate either of the courses before mentioned, though in principle having no objection to Germany obtaining satisfaction.

Troops to Collect Toll.

Lexington, Ky., Nov. 29.—Governor Bradley in an interview Sunday said he would call out the state troops to guard the toll gates threatened by the raiders. He says he will keep the troops on guard until the danger from the raiders is over, if it requires six months' time. He hopes to have a bill passed at the next legislature saddling the expense of the troops on the counties in which the guarding is necessary. He says the turnpike raiders must be put down at all hazards, and that he will exhaust all the power of the commonwealth to that end.

Teachers to Meet in Force.

Kokomo, Ind., Nov. 29.—The school officers and teachers of this city are already making preparations for entertaining the next annual session of the Northern Indiana Teachers' association at this place next spring. The time of the gathering has been fixed at April 7, 8 and 9. Superintendent Woody, who has been in communication with all the county associations of the state, says the teachers will be here 2,000 strong. The enrollment at Elkhart last year was 1,500.

Philippine Revolt Not Quelled.

Madrid, Nov. 29.—The captain general of the Philippine islands, Gen. Primo de Rivera, cables from Manila that the insurgents of that colony had a meeting, could not arrive at an agreement, and started for home, but the dispatch adds: "They were intercepted by the Spanish troops, who killed many of them."

Youthful Highway Robbers.

Omaha, Neb., Nov. 29.—Frank Betts, aged 13 years, and James Marvicka, aged 10 years, footpads of the dime-novel variety, are in jail under the charge of choking and robbing a 10-year-old daughter of Joseph Sobelz, who had been sent to a grocery.

## AN APPEAL IS MADE TO IRON BRIGADE

CONTRIBUTIONS ASKED FOR A MONUMENT.

Money Is Needed to Complete the Testimonial to General John Gibbon—Cost Is \$1,200 and \$300 Has Been Paid—O'Donnell Gets a New Trial

Milwaukee, Wis., Nov. 29.—The committee of the Iron brigade having in charge the raising of money necessary to pay for the proposed monument to the commander of the brigade, General John Gibbon, has issued an appeal to members of the brigade to contribute enough money to pay for the completion of the monument. The cost delivered in Washington will be \$1,200. One payment of \$300 has been made and another one will be due in two months.

O'Donnell Gets a New Trial.

Eau Claire, Wis., Nov. 29.—Judge Bailey set aside the verdict by which John O'Donnell was found guilty of murdering his wife by the administration of strychnine and granted him a new trial. O'Donnell is now in state prison on a life sentence.

## USE FOR WASTE LAND.

Kankakee Valley in Indiana Worth Millions of Dollars.

Crown Point, Ind., Nov. 29.—At North Judson, Stark county, Dec. 7, final steps will be completed in locating one of the largest sugar-beet factories in this part of the country. For the past year experiments have been made in raising sugar beets in the Kankakee river bottoms, and it has been much more successful than anticipated.

Should the factory materialize, this will cause the now worthless Kankakee valley to be worth millions of dollars, as it extends solidly from South Bend, Ind., to Muncie, Ind., and covers millions of acres of land. Those who are up in beet raising say a net profit of \$36 per acre can be made in beet raising.

Chemists at Purdue say the valley land is better adapted for this particular business than any place in the country. Next year Indiana will probably be a sugar producing state.

Miners to Stop Work Again.

La Salle, Ill., Nov. 29.—The miners of the La Salle district held a mass meeting Sunday afternoon and decided to stop work again. Some of the miners who believe they can do no better than the 60-cent offer declare they will continue to dig coal, no matter what happens. In case they do there will likely be trouble. The situation is further complicated by dissatisfaction among the company men, who claim that the wages to be paid them, \$1.75 per day, is not proportionate to the price offered the miners.

Will Advise Durrant's Execution.

San Francisco, Nov. 29.—Acting Attorney-General Carter has received word from Attorney-General Fitzgerald to the effect that he will advise Warden Hale to carry out the execution of Theodore Durrant regardless of any legal proceedings that may be instituted by Durrant's attorneys until the present legal quibble has been decided. Durrant will be sentenced as soon as the controversy now pending is settled, after which the attorney-general of the state believes no legal step can accomplish further delay in the proposed execution of Durrant.

Sewer Pipe Tied Up in a Trust.

Cleveland, O., Nov. 29.—A meeting of sewer pipe manufacturers will be held here Tuesday to complete the organization of the pool, toward the formation of which the preliminary steps were taken a few days since at East Liverpool. It is expected that the pool will embrace all the factories in the country, most of which are located along the Ohio river. It is now announced that J. Pierpont Morgan will have nothing to do with the organization, but that it will be controlled by the pipe manufacturers themselves.

Mandamus Proceedings Commenced.

Chicago, Nov. 29.—The Diamond Investment Company, of this city, has commenced mandamus proceedings in the United States Court to compel the postmaster to receive for transmission through the mails its literature and bond plan. George M. MacDonald, president of the company, announces that the case will be pushed in the Federal courts.

Gases in Smuggler Mines.

Aspen, Colo., Nov. 29.—The Smuggler Mountain mines are in trouble again, and from present indications all the miners in the Cowenhoven tunnel, Della St. Johnson, Pearl-Regent, Bushwhacker, Mineral Farm and Alta Argent will be driven out by the deadly gases from the fire that is still smoldering in the big slope of the Smuggler mine.

Lovers' Quarrel Ends in Murder.

Grand Forks, N. C., Nov. 29.—Mary Luxton, aged 22 years, shot and fatally wounded Ole Halverson, aged 25 years, at Inkster, as the result of a lovers' quarrel. She tried to kill herself, but Halverson held her arm.

## DR. HODGE IS HEARD AN BAPTIST CHURCH

FORMER PASTOR PREACHED  
YESTERDAY MORNING.

Large Congregation Heard Him With  
Pleasure—Rev. E. H. Pence On  
"The Divine Human Gospel"—Rev.  
R. C. Denison On "Salvation"—Rev.  
A. W. Hall's Ideas of Children.

It was with pleasure that a large  
congregation greeted their former  
pastor, Dr. Hodge, at the Baptist  
church yesterday. He took for his  
text Eph. 3-17.

The apostle who wrote this text was  
a man of prayer. A man who really  
prays to God, is a good man. Paul  
was an unselfish man for he prayed for  
his brethren.

Let us now look at this subject,  
"The Inward Christ." Notice  
first. That when Christ moves in,  
the old inhabitants of the heart must  
move out. Sin and Christ can not live

together. Everything wicked must  
get out and permit the good to take its  
place. Christ may be in a man's creed  
and not be in the heart.

Second. This prayer was for a much  
needed guest. We need the Savior to  
lead us and comfort us. When sorrow  
comes we especially need him and he  
loves to come when he is wanted.

Third. It is a prayer for an up-  
lifting guest. We want guests who can  
lift up and make us better men and  
women. It is almost impossible to be  
good among some men, or to do  
wrong in the presence of some others.  
We want Christ for a guest.

Fourth. It is a prayer for an en-  
ergetic force. Paul was a faithful  
preacher and successful man, because  
Christ was in him to help him be full  
of life.

Fifth. It was a prayer for a guest  
who does not come alone; His disci-  
ples came with him.

The same spirit that leads us to love  
Christ will lead us to love all who love  
the Lord. The working of this spirit  
in the people is an encouraging sign  
of the times.

This is a prayer for complete sub-  
mission to God's will. If this spirit is  
in us we shall have great hopes of  
eternal life. Christ is there, and we  
may be like him.

"If we two are so joined,  
He'll not live in glory,  
And leave me behind."

In the evening Mrs. Yates led the  
young people in a very interesting and  
instructive temperance meeting.

Rev. Mr. Kempton will preach next  
Sunday.

## DIVINE HUMAN GOSPEL

Rev. E. H. Pence Speaks To  
A Large Congregation On An  
Interesting Theme Yesterday.

Rev. Mr. Pence, of the Presbyterian  
church preached yesterday morning  
from the text 1 Thess. 2:13 on the  
topic, "The Divine Human Gospel." There  
is probably nothing more inter-  
esting to the student of history and  
human nature than the tracing of  
the effects of this gospel upon the  
Roman world to which it came and  
it is the tracing of this effect which  
makes the study of the epistles of  
Paul so interesting. The Bible is a  
two sided book, it has a human and  
a divine side. Every duty that con-  
fronts us, every truth that comes to  
us, has a human and a divine side.

We see only one side of these great  
truths of this gospel of ours, these  
duties and obligations that come to us.  
This gospel has all the veracity of  
God beand it and yet on its human  
side, it is perfectly adapted to the life  
which it commands us to live.

This gospel is grounded in history and  
personal experience. It is intensely in-  
teresting to trace the development of  
God in his relation to his people.

The first idea of God was as the  
creator and ruler of the whole universe  
with infinite power might and wisdom  
A little farther on we find the person-  
ality of God developing into his rela-  
tions with Enoch, with Noah, Abra-  
ham, Isaac, and Jacob and finally  
down to his close personal relation  
with Moses. It is progressive revela-  
tion. We see him as the history of  
the Jews goes on developing, brood-  
ing over the Israelites as a God who is  
ever with them. Study God's person-  
ality as revealed in his relation to  
David and Nehemiah. Finally the  
personality of God came down in  
human form and manifested itself in  
the marvelous teachings and deeds of  
the Nazarene, the sweetest message  
that has come down to the ages.

What is the divine motive in this  
book? What was God's motive in  
creating a world, a universe? God's  
idea was to create something good,  
and he looked at his creations in a  
strictly moral aspect and said of it all,  
"It is good." That was his motive,  
and his ideal, his highest thought, the  
creation of the good, the pure, holy  
and upright. His command to them  
was to live as a nation and as individ-

uals, pure and holy lives. Another  
motive is God's dealings with his  
people was mercy. Mercy is woven  
all through this fabric, with judgment,  
until finally mercy and justice were  
reconciled in the life and personality  
of Christ upon the earth. God's meth-  
ods were not human, they were divine  
all through.

What intensely human people we  
have in this book! Christ himself was  
intensely human, and then look at  
Jacob, David, Peter, Saul, of Tarsus  
and others.

Let us say of this bible that it is the  
foundation of all our belief, the key  
that unlocks heaven, and a new life  
for us. Through this gospel and in it  
we will conquer through Him that  
loved us.

## SPOKE OF SALVATION.

Rev. R. C. Denison, of the  
Congregational Church, chose  
this as his Sunday Theme.

At the Congregational church, yes-  
terday morning the pastor spoke on  
"Outlook and Duty," from the text,  
"The field is the world." He said in  
part, that true christianity forbids the  
concentration of life upon self. Its  
outlook is towards the redemption of  
the world. True Christianity also  
forbids that shallow optimism which  
thinks the world sails over summer  
seas to blessed isles. Christianity  
would not shrink from knowing the  
world just as it is. It would not re-  
treat in the sanctity and luxury of  
religion and leave the common world  
to get on as best it can. Because  
christianity is thus something that  
looks and works outward upon actual  
life, I ask you to think of some of  
the grave problems which comfort our  
civilization. The average life of today  
was never better than today. But  
things are not yet altogether rose-  
colored. We have the problems of  
the bad man yet. All progress must  
be on having the opposition of  
many selfish and narrow men. Bad  
men are the parents of the world's  
evils. One problem which springs  
from the bad man is the problem of  
the city. The percentage of our citi-  
zens living in cities rapidly increas-  
es, criminality centers in them. They  
afford opportunity for the gratification  
of vicious habits. The rush and ex-  
citement of their lives exhaust strength  
and lessen the sober and restful ele-  
ments of life.

The most distinguished students of  
American institutions have believed  
that the greatest problem and danger  
to American democracy lies in the  
city. On it the evil men pervert and  
the good men neglect their citizen-  
ship. Either is a menace to the democ-  
ratic system. The next step for  
american patriotism to take will be to  
follow the lead of many European  
cities and seek to make as wholesome as  
possible the conditions of life in these  
great centers where God has appointed  
our sons and daughters to live.

The other phase of life on which we  
look is the liquor problem. Seventy  
five percent of the world's crimes and  
five percent of its sufferings result  
from the intemperant use of alcohol.

The report of the United States census  
and of experts employed by the bureau  
of education and various state boards  
of charity and lunacy, as well as the  
investigation of interested individuals,  
put these facts beyond dispute. No  
American audience, for every one of  
whom alcohol has saddened or ruined  
the life of some friend, needs to have  
the facts retold. Our christian duty in  
this matter is clear. First to let in-  
terests absolutely alone until in the  
progress of things they are restored to  
their true uses, and second by good  
life to seek to bring to the world so  
much that is good that the power of  
the evil may be broken.

In the evening five of the city  
churches united in a temperance  
meeting. An audience that crowded  
the large church, listened to addresses  
by Mr. Pence, Mr. Hall, Mr. Thomp-  
son and Dr. Hodge. The addresses  
were stirring and were enthusiastically  
received. Dr. Hodge spoke with  
his accustomed insight and eloquence.

## TRAINING CHILDREN

Rev. A. W. Hall of the Court  
Street Church Preached On  
That Subject Yesterday

A practical topic: "The Training of  
Children," was the theme discussed by  
the pastor at the Court Street M. E.  
church yesterday morning. The text  
was a selection from the book of  
Proverbs. "Train up a child in the  
way he should go and when he is old  
he will not depart from it."

The speaker said that our country  
is divided into what is known as the  
humid and arid districts, nearly two-  
fifths of it belonging to the latter  
class. This arid district is an inter-  
esting study, containing mountains of  
mineral wealth and undeveloped  
treasures. When this barren district  
is subdued by irrigation and science  
the possibilities of our land may be  
realized.

But greater than the question of  
nature's development, greater than the  
questions of national finance, is the  
important question of the rights de-  
velopment of child life. How can this be  
accomplished? The text gives the key  
to the problem.

What does training mean? It means  
first control, and in order to control  
we must first get hold of them, either  
by kindness or firmness, or both.

The control should be along right  
lines. Courtesy, good manners and  
the little things that are all important  
to successful life. But more impor-  
tant still is the control of the mind,  
the moulding of the heart, so that the  
child takes into life strong christian  
character. The old time discipline is  
helpful and all important. The child  
should be trained to love the church  
and its ordinances.

The sermon was full of helpful sug-  
gestions and very practical.

## ABNET IS TO RACE ACROSS THE SEA

FAMOUS ROCK COUNTY HORSE  
IS SOLD.

An Italian Buyer Now Owns the Mare  
—Henry Chessman of Clinton, Who  
Bought Her For a Pet,  
Found Her a Veritable Gold  
Mine.

Abnet, 2:14, owned by Henry  
Chessman of Clinton, has been sold to  
an Italian buyer, and will be shipped  
across the seas. This little mare has  
been one of the trotting notabilities of  
the west since she made her debut in  
1894 as a 2-year-old, when she took a  
record of 2:29, on a half-mile track.

The next season, as a 3-year-old, she  
was a semi-phenom, when she won six  
brilliant races, in one of which she  
beat the great colt, Pat L., while the  
most of the others were against the  
best of her age or else fast aged  
horses. She scored 2:12, the best re-  
cord of the year by a 3-year-old filly,  
and became the object of much atten-  
tion on account of her size, for she was  
only a trifle over fourteen hands, and,  
as the ladies would say, was the  
"cutest little thing" that ever turned  
for the word. In 1896 as a four-year-old,  
she was not so successful, but trotted  
some very fast races, her best heat  
being made in 2:13, while she forced  
Kentucky Union out in June at Red  
Oak, Iowa, in 2:10. The last season  
she was placed with Chicago's clever  
reinsmen, George West and showed  
improved form.

A Brilliant Season.  
In her first race she trotted a half  
mile in 2:14 and next at Cleveland, O.,  
came third to Rima Oakland Baron  
in a fierce five heat race, finishing  
second in four of the five heats, which  
ranged from 2:10 to 2:13. Her next  
start was to Davenport, Iowa, where  
she won and trotted to her record of  
2:12, and at the Milwaukee state fair  
she had another easy victory. Thence  
she went to Indianapolis, Ind.,  
where she won the fourth  
money only, but lost Dick Hubbard  
out in the second heat at 2:09. At  
Terre Haute she was just behind the  
money, but was third a heat in 2:09.

Her campaign was wound up at Lex-  
ington, where she trotted the race of  
her life, lapping Anthanio out in 2:10, in  
the first heat and winning the next  
two in 2:10, 2:11, after which  
Anthanio defeated her in 2:10, 2:12.

Owing to her diminutive size, Abnet  
is placed at a disadvantage when cop-  
ing with horses of size and strength.  
But she is fast, game, and will be a  
great favorite across the pond, where  
small horses rather have the call. The  
price paid for her is quoted as \$3,000.  
Bought for \$500

Abnet has been a money winner  
from the start. Mr. Chessman wanted  
a horse for his children, the story  
goes, and went to Chicago to buy one  
at the stock yards. Abnet caught his  
fancy, and he bought her, paying, it  
is said, \$500 for her. When she de-  
veloped, it was found that she was  
very fast. "Joe" Bassett, the noted  
veteran driver, took charge of her,  
and she showed phenomenal speed.

Her first racing season was but a suc-  
cession of victories. She won every-  
thing in sight, and her winnings for  
the season were something like \$7,000.  
Last year she also did well, under  
George West's care. She has trotted  
here on several occasions.

POSTMASTERS RECOMMENDED  
The Offices at Hanover and Footville  
Are Filled

A dispatch from Racine says that Con-  
gressman Cooper has made the follow-  
ing recommendations for appointment  
to fourth class postmasters in the First  
district: John E. Perrigo, South  
Wayne; Frank W. Owen, Footville;  
Edward G. Brown, Hanover.

J. A. Perkins, of Antiquity, O., was  
for thirty years needlessly tortured by  
physicians for the cure of eczema. He  
was quickly cured by using DeWitt's  
With Hazel salve the famous healing  
salve for piles and skin diseases. C.

TERSE TALES OF THE TOWN  
The common council will meet  
tonight.

PROF and Mrs. Mayne are home  
from Milwaukee.

The Knights of Pythias will meet  
tonight at Castle hall.

MR. SHERMAN, of St. Mary's avenue  
is much improved today.

THERE were five Monday's in this  
month and this is the fifth.

THIS is the regular drill night for  
the Jamesville Light Infantry.

The Y. P. S. C. E. of the Congrega-  
tional church will give a social at the  
church on Friday evening. The young  
people cordially invite their friends.

E. P. HUMPHREY, of Chicago, son of  
M. M. Humphrey of this city, leaves  
the first of the week for Nicaragua,  
South America where he will work on  
the Nicaragua canal as one of the  
surveyors. He will be gone about  
two years. Mrs. Humphrey and  
daughter, Miss Mate, went to Chicago  
Saturday noon to spend a few days  
with him before his departure.

Mrs. M. B. Ford, Russell's Ill., suf-  
fered for eight years from dyspepsia  
and chronic constipation and was  
finally cured by using DeWitt's Little  
Early Risers, the famous little pills  
for all stomach and liver troubles. C.

## MAY SUSPEND THE STUDENTS

Beloit College Faculty Angry Because  
of the Late Banquet.

Beloit, Nov. 27.—The faculty of  
Beloit college has begun its official  
investigation of freshmen misdeeds  
and serious consequences are likely to  
follow. On the day before Thank-  
sgiving the entire class went off to  
Rockford for a class banquet thereby  
directly disobeying the president's  
command and breaking the college  
rule which in substance says: "No  
class shall hold a banquet out of town  
and no class shall hold a banquet  
without giving one week's notice  
thereof."

An inquisition took place and each  
member was asked the following  
questions: (1) Were you at the ban-  
quet? (2) Were you acquainted with  
the faculty's rule on the subject? (3)  
Have you anything to say?

Some would not answer the first  
question or the second but scarcely  
any answered more than "No" to the  
last. The faculty feel that the offense  
was a very direct violation of the rule  
and therefore consider it simply as a  
matter of discipline. While a settle-  
ment of the matter is likely, some  
penalty will certainly be put on the  
offenders. A member of the faculty is  
reported as saying that he saw nothing  
to do but to suspend the offenders  
for the rest of the term. Something  
of that nature will undoubtedly be  
the outcome though the official an-  
nouncement will not be made until the  
faculty has met again. If this penalty  
is enforced almost the entire class will  
be out and it is more than likely that  
the rest will follow out of class spirit  
and sympathy.

A PLAN FOR TURKEY SHOW  
O. L. DeForest Favors Holding An Annual  
Exhibition of This Kind.

EDITOR GAZETTE—Another day of  
national feasting has passed, and we  
propose to offer a few suggestions  
towards its future continuance. We  
will inaugurate an annual "Exhibition  
of Turkey's." As they are becoming  
somewhat scarce it might be well to  
have our first exhibit open to all  
"domestic fowls," but each subse-  
quent exhibit should be exclusively  
"turkey." We are of the opinion that  
raising will prove quite as remunerative  
to the grower as the production of  
beef, mutton or pork, therefore aside  
from the pleasure we should derive  
from the inspection of these products  
of the county in this branch of hus-  
bandry the promoters would reap  
their harvest. When it became gen-  
erally known outside, would make  
their annual pilgrimage to our city  
not only for pleasure but for profit,  
thereby establishing a home market.  
To make the first exhibition a success,  
definite arrangements should be made  
early in January, so that growers  
may have ample time to prepare for  
the season's work, or our "grand  
exhibition" will prove a failure.

Liberal premiums should be offered  
for both live and dressed birds. The  
exhibit should be made three days  
before Thanksgiving, regardless of  
weather prospects. Citizens should  
contribute ample hall room, nicely  
decorated for the occasion. Admission  
fees to be divided among exhibitors  
not receiving premiums.

O. L. DeForest.

## A GOOD PRACTICE.

If You Want a Good Appetite and Perfect Digestion.

After each meal dissolve one or two of Stuart's Dyspepsia Tablets in the mouth and, mingling with the food, they constitute a perfect digestive, absolutely safe for the most sensitive stomach.

They digest the food before it has time to ferment, thus preventing the formation of gas and keeping the blood pure and free from the poisonous products of fermented, half-digested food.

Stuart's Dyspepsia Tablets make the complexion clear by keeping the blood pure. They increase flesh by digesting flesh-forming foods.

Stuart's Dyspepsia Tablets is the only remedy designed especially for the cure of stomach troubles and nothing else.

One disease, one remedy, the successful physician of to-day is the specialist, the successful medicine is the medicine prepared especially for one disease.

A whole package taken at one time would not hurt you, but would simply be a waste of good material.

Over six thousand men and women in the state of Michigan alone have been cured of indigestion and dyspepsia by the use of Stuart's Dyspepsia Tablets.

Sold by all druggists at 15 cents per package. Send for Free Book on stomach diseases to Stuart Co., Marshall, Mich.

## WISCONSIN NEWS IN BRIEF

WILLIAM SIMPSON, a crockery dealer of Chippewa Falls, has made an assignment.

SAMUEL McDERMOTT, of Hudson, has returned from a year's stay in South Africa.

CHARLES KENNARD, of Kenosha, was seriously burned while trying to start a fire with kerosene.

The county jail at Fond du Lac is said to have more notorious criminals confined than ever before in its history.

The McCord Lumber company of West Superior will make an effort to run its sawmill at that place during the winter, shipping the logs by rail.

In the poorhouse at Eau Claire there is an old cigar maker 90 years of age who cultivates a small piece of tobacco on the poor farm and makes the product of his patch into cigars with which he keeps the other inmates of the house supplied.

In the case at Racine of Carl Dierks, who brought suit against the city for the death of his son, who was killed by the falling of an electric light pole, the jury gave a verdict for \$2,600 damages. Suit was brought against the gas company of the city, but the case was non-suited. Mr. Dierks asked for \$10,000.

JOHN T. MURPHY of West Superior, who has been in British Columbia looking after mining interests, has returned to his home. He says that as soon as the spring opens and several routes have been established to the Klondike, there will be the biggest rush for that country ever witnessed.

The Rev. Cyrus Hamlin, formerly pastor of the First Congregational church of Beloit, now at the head of the Sengaloos university for colored people in Georgia, has sent word so President Eaton of Beloit college saying that Ladies' hall of the school in Georgia has been burned and asking for aid. The First Congregational church has taken the matter in hand.

Cannibalism in Samoa. Dead Stalwarts Eaten to Obtain Strength and Courage.

A writer on the French Journal des Debats, who has just returned from a trip to Samoa, says that nineteen per cent of the population eat stalwart warriors who fall in battle to obtain strength and courage. The former quality is more easily obtained in civilized communities by the use of Hostetter's Stomach Bitters, a tonic of unexampled utility, which cures strength upon the feeble through the agency of improved digestion and assimilation of the food. The operations of this mysterious medicine on the human stomach, are often greatly impeded by those obstacles to complete digestion—biliousness and constipation. For these ailments Hostetter's Stomach Bitters is a sovereign remedy. It also conquers and prevents rheumatism, kidney trouble and nervousness. Recuperation of exhausted strength after sickness is often tedious and slow. The Bitters will always hasten the recovery of vigor. Use it systematically and justify yourself in expecting satisfactory results.

Personally Conducted Tour Through Mexico.

The Northwestern Line has arranged for a personally conducted tour through Mexico, under the auspices of Mr. J. J. Grafton, the well known excursion manager. The party will rendezvous at Chicago and leave there Tuesday morning, January 25, 1898, in a Special Vestibuled Train of Palace Sleeping Cars, which will be their home for the entire trip. All of the cities and almost every place of interest in this wonderful country will consume thirty days, but the tickets will be limited for return passage to nine months. A more interesting, beneficial or pleasant winter outing it would be difficult to conceive. Illustrated pamphlets and full information as to rates, etc., will be furnished on application to ticket agents Chicago & Northwestern Railway.

Port Arthur, Texas.

C. & N. W. R'y Co. will sell round trip excursion tickets to above point November 16, December 7, December 21, for one fare, plus \$2. Leaving Janesville 6:40 a. m. v. a. St. Louis, reaching Port Arthur twenty-four hours in advance of any other line. For further particulars call on agent C. & N. W. R'y.

Educate Your Bowels With Cascarets. Candy Cathartic, cure constipation forever. 50c box. If C. C. C. fail, druggists refund money.

Big Fire at Philadelphia.

Philadelphia, Nov. 29.—The millinery and furnishing stores of Apt Brothers, 39 and 41 North Eighth street, were damaged by fire Sunday to the extent of about \$75,000 on which the firm carried \$50,000 insurance. The building was damaged \$10,000, covered by insurance. The origin of the fire is unknown.

Coal Is Started South.

Pittsburg, Pa., Nov. 29.—Over 1,000,000 bushels of coal left this port Sunday for Southern markets. There are in the neighborhood of 8,000,000 bushels loaded, awaiting shipment, and it is expected that between five and six millions will get out on the present rise.

Missionary Rally Closes.

Kokomo, Ind., Nov. 29.—The Indiana state Christian missionary rally closed here Sunday after being in session one week. The closing address was by Rev. A. McLean of Cincinnati, secretary of the National Missionary Society.

Murdered by Negroes.

Little Rock, Ark., Nov. 29.—On a large cotton plantation in St. Francis county eight negroes murdered Joe Miller, a cotton picker, and assaulted his wife. Four of them have been arrested.

Unsatisfactory Answer.

"If I were to die, would you marry again?" said Mrs. Bickers to her husband.

"My dear," replied Mr. Bickers, "an able philosopher once said that no man should be called a hopeless fool until he had made a fool of himself twice in the same way."—Louisville Courier-Journal.

No Recommendation.

"Did you buy that horse Skeemer wanted to sell you?"

"No, sir—Afraid of him."

"Didn't Skeemer say the ladies in his family drove him regularly?"

"Well, he said he let his wife's mother drive him every day."—Detroit Free Press.

How It Works.

"Why are you so anxious to marry?"

"To get a little liberty. An unmarried girl has practically none."

"And is George's reason the same?"

"No. I believe he is marrying because he has had too much. His father wants him to settle down."—Chicago Post.

A Youthful Solomon.

Teacher—What is the meaning of one twenty-fifth?

Little Boy—I don't remember.

Teacher—If you had 25 children visiting you, and only one apple for them, what would you do?

Little Boy—I'd wait till they went, and then eat it myself.—Spare Moments.

A Visit of Congratulations.

"What a lovely bouquet."

"Yes; I'm taking it to Mrs. Wells, as this is her birthday."

"But I thought you were not on very good terms with her now."

"Neither I am, but this is her fortieth birthday, and she knows that I am the only one who knows it."—Judy.

Truly Grateful.

Minister (to elderly female crofter)—I'm sorry to hear your potatoes are very bad this year, Janet.

"Deed they are, sir; but I've reason to be thankful to Providence that other folks are as badly off as myself."—Tit-Bits.

Married Now.

## THAT PIPE ORGAN

The Recorder takes occasion to howl about extravagance and refers to the pipe organ in progress of building for the state school for blind as a useless waste of money. The Recorder appears to have overlooked the fact that the last session of the legislature without regard to party appropriated the money for the organ in question, being convinced by their own committee that music is one of the few channels open to the blind and that the use of a pipe organ frequently contributes to their independence. The Recorder is doubtless ignorant of the fact that state schools for blind are usually equipped with pipe organs.

If the Recorder really desires to discuss extravagance suppose the paper tells its readers why the last democratic administration appropriated \$6,000 for the purchase of land not needed by the state school, or \$10,000 for a ventilating system that was utterly useless and not worth the freight on the material for the purpose intended.

The paper might also explain why, under the same administration, one of the state schools bought hardware, groceries and all other supplies of a retail dry goods house in Milwaukee, the significance of which is apparent to all who are familiar with the facts.

Not one institution alone, but every institution in the state is being run for less money this year than during any year of the democratic administration. In some cases totals have been increased by special appropriations, but these were for permanent improvements, and the enhanced value of state properties stands as an offset. Business principles have governed in every transaction, and no money has been spent save where absolutely necessary. Wisconsin tax payers have reason to congratulate themselves as they compare conditions at home with those in neighboring states and with conditions in this state four or five years ago.

## Not a Paradise.

Westerner—Goin' ter settle here, are ye?

Tenderfoot—Yes, I have come here to stay, and have already bought a home. I was attracted to this place by an item in a newspaper which said there had not been a lawsuit in your country for ten years.

Westerner—Wall, there ain't. You see there ain't no usin' goin' ter law w'en Winchester is as cheap as they air now.—N. Y. Weekly.

## Looking Before Leaping.

Lady—I wish you would call at the office of Mr. Oldrich, 999 Fashion avenue, contrive to have some conversation with the venerable gentleman, and, so far as you are able, examine into his physical condition. I desire to know how long he is likely to live.

Physician—Certainly. Are you his wife?

Lady—No, but I have a chance to be.—N. Y. Weekly.

## Conscience Money.

"This," he said, as he laid down a dime, "is conscience money. Ten years ago—"

"I should have supposed," was the sarcastic reply of the storekeeper, who had lost a good deal through petty pilfering, "that you would have quoted your conscience higher than that."—Chicago Post.

## Strongly Developed.

Johnny's Teacher (making a call)—Of course, Johnny is rather willful, but he is a right, promising boy, and he has a decided taste for original investigation. You must have noticed that.

Johnny's Mother (listening uneasily)—Yes, I have. I believe he is at the blackberry jam this minute!—Chicago Tribune.

## Impassioned Eloquence.

"Of course, I couldn't hear what he was saying," remarked the friend who had been waiting in the lawyer's reception room, "but I couldn't help being impressed with the intense earnestness of your caller's voice."

"No doubt, no doubt—he wanted a loan."—Chicago Journal.

## THE TEMPERANCE MEETING

Large Audience Applauded the Speakers at the Congregational Church

Saloon keepers and saloons were discussed at length at the Congregational church last evening. The occasion was a union temperance meeting. The five local churches that united on this occasion were the Court Street Methodist, Baptist, Congregational, First Methodist and the Presbyterian churches. When the Rev. Robert C. Denison of the Congregational church rose to open the meeting he was greeted by an audience that taxed the large auditorium, and the gathering was as enthusiastic as it was large. Rev. E. H. Pence of the Presbyterian church was the first speaker and gave some startling figures showing the vast amount of money that is annually spent in the world for liquor. These figures foot up into millions of dollars. Rev. Mr. Pence further stated that he thought that very little effort was brought to bear on the general public or liquor selling could be stopped.

Rev. A. W. Hall, of the Court Street M. E. church, spoke next. He said he had noticed several saloons bearing fancy names; that he failed to see where such names benefited a man's business, but perhaps a man could deceive his wife easier when he stayed out late, by saying he had been down to "The Headquarters."

Rev. H. W. Thompson, of the First M. E. church, spoke in his usual forcible way. The Wisconsin legislature he said, had men in its ranks who were very easily influenced by men who favored the saloons. These men he did not class with intellectual kind. Rev. Thompson's remarks brought forth hearty applause.

Rev. Dr. M. G. Hodge was the last speaker. His remarks were brief and to the point. He dwelt on the influence of the liquor habit, and said he thought that some day this evil will stop and that the whole wrong will be righted.

During the evening the choir of fifty voices furnished music. A trio composed of Mesdames W. J. Jeffris, Minnie Melzies and A. O. Wilson also sang.

## Killed by Bursting Boiler.

Pittsburg, Pa., Nov. 29.—John Muller was killed and five others were badly injured Sunday evening by a boiler explosion at the old Moorehead & McClean blast furnace, operated by Laughlin & Co. The other victims are: Seaford Ames, fireman; John Pierpont, John Karsey, William McCarthy, firemen, and a colored man, name not known. Ames' condition is critical. The others will recover.

## Cuban Decrees Fleece Campes.

Madrid, Nov. 29.—The Cuban decrees have been received with conflicting impressions, but most Spaniards are disposed to accept the change as dictated by the necessities of the situation. Marshal Martinez Campos warmly approves the decrees and is willing to go to Cuba if necessary. General Azacarraga reserves his opinion until he sees the effect of them upon the rebellion.

## Run Over by Freight Train.

## ASTHMA AGONY.

Munyon Has Mastered This Living Death.

## A GREAT MEDICAL DISCOVERY.

No one who has not experienced or witnessed the agonies of asthma can little exaggerate to say that sufferers from asthma die many times. Acute paroxysms frequently result in unconsciousness and sometimes in death. Like many other diseases which have baffled medical skill for centuries, however, asthma has met its master. Munyon's Asthma Cure will stop the most violent paroxysm of asthma in three minutes. They are compressed into triangular pastilles, the most convenient form for burning ever discovered. Used with the Asthma-Cure, they will positively and permanently cure the worse forms of asthma. Professor Munyon guarantees it. A box of Munyon's Asthma Cure with Munyon's Asthma-Cure may be obtained from any druggist for one dollar.

Mr. Daniel W. Fink, 139 Church Street, McSherrystown, Pa., says: "A member of my family suffered from asthma for a long time. Her distress during the paroxysms of short breathing was very great. She tried a great many kinds of treatment without obtaining more than temporary relief. Finally, I placed her under treatment with the Munyon Remedy, using the Asthma Cure and Asthma Herbs, and I am pleased to testify that this treatment has completely cured her. Munyon has a separate specific for each disease. For sale by druggists. Mostly 25 cents. If in doubt, write to Professor Munyon at Philadelphia, and get medical advice free."

Rev. Dr. M. G. Hodge was the last speaker. His remarks were brief and to the point. He dwelt on the influence of the liquor habit, and said he thought that some day this evil will stop and that the whole wrong will be righted.

## MONTANYE IS DEAD FROM HIS WOUNDS

### FARMER'S INJURIES AT LAST PROVE FATAL.

Had Been Unconscious Most of the Time Since the Accident, and the Physician Had No Hope—Well Known Former Resident Is Called—Mortuary Mention.

Beloit, Wis., Nov. 29.—[Special]—Herbert Montanye, the farmer whose rig was struck by a passenger train on the St. Paul road last week and who was so badly injured that he has since scarcely regained consciousness, died Saturday night after several days of terrible suffering. The funeral will be held tomorrow forenoon at 10 o'clock from his recently purchased home just east of the city. It is understood that the St. Paul road is contemplating putting in an electric bell to give warning at the crossing where Montanye was killed.

It was the intention of the attending physician, Dr. S. Bell, to remove him to the St. Paul company's hospital at Tomah. A. J. Radcliff, an attendant of the hospital, went to Beloit to assist in removing him, but the patient was in no condition to be moved.

Mr. Montanye is a single man, one of the well known brothers who have carried on farming successfully in this locality for several years. He and his brother purchased George Wilkinson's splendid farm very recently and were to take possession next spring.

Eugene B. Dyke.

Eugene B. Dyke, a graduate of Beloit college, class of '65, suddenly died at Charles City, Iowa, October 29.

Mr. Dyke was the editor of the Charles City Intelligencer, and on the morning of his death arose as usual, and after breakfast went to his work. On the way down, however, he experienced spasms of pain, which gradually increased in violence. He was compelled to return home immediately and had barely time to lie down before becoming helpless. After a few moments he breathed his last.

Mr. Dyke was reared on his father's farm in Rock county and received his education at Beloit college, receiving the degree of B. A. in 1865 and later on that of A. M.

For about ten years he was engaged in teaching in Wisconsin and Indiana. In 1864 he left college and enlisted in Company C, Forty-seventh Iowa Volunteer Infantry, in which he served about one year; was in Steele's division Seventh Army Corps. Returning to college at the close of his army experience, he completed the studies of the senior year in one term and graduated.

In 1870 he went to Charles City and soon after purchased the Intelligencer. He was married Dec. 19, 1872, to Miss Emily C. Gilbert, of Rockford. Mr. and Mrs. Dyke have two children. He was postmaster under President Harrison's administration. He has held many prominent offices in fraternal circles, all of which duties he discharged with the strictest fidelity. He was beloved by all who knew him.

Robert A. Hickox.

A letter to The Gazette from Skagit, Washington, announces the death of a former Janesville business man.

Robert A. Hickox died October 21, 1897, in the soldiers' home at Santa Monica, Cal. General debility, the result of a complication of diseases was the cause of his death.

He was born in Ontario County, N. Y., on the 13th of June, 1844, and was aged fifty-three years, four months and four days, at death. He enlisted in company E, Fifth Wisconsin Volunteers, on the 13th day of June, 1861, his seventeenth birthday.

After a service of about two years he was honorably discharged for disability and sent home to die. Good nursing and the wise services of Dr. Treat rescued him from a premature grave. After recovering his usual health and vigor he re-enlisted in the United States army, and continued in its service until the close of the war. After the close of the war, he was employed in Chicago for a time in the photograph business, but returned to Janesville and continued to follow that profession. He married Miss Anna Hotelling, a sister of Stephen Hotelling. Mr. Hickox moved from Janesville to Iowa about twenty-eight years ago, and has since been engaged in business in different states. He leaves one child, a son, Lou Hickox, in Santa Anna, Cal.

Major J. F. Denniston.

J. A. Denniston of this city, is in receipt of a letter announcing the death of his cousin, Major Joseph F. Denniston, whose demise took place at Pittsburg, as the result of a wound received in the late war. During one of the engagements he was shot in the leg, and it was amputated several times in hopes of giving him relief.

## THEY OBJECT TO THE SEWER

Edgerton People Get an Injunction to Stop the Work.

Clerk F. Burt Carr, of the Hotel Myers, may not occupy that new Edgerton hotel as soon as he expected to, if the matter of a sewer makes any difference. Saturday afternoon an injunction was secured in this city before Court Commissioner E. D. McGowan, stopping further work on the hotel sewer. The intention was to have the sewer empty into the creek that runs through the town. Farmers through whose farms the creek runs made the objection and got out the injunction.

Hall, Sayles & Fife, "the reliable jewelers," are ready with a most complete stock of pretty things to give, at right prices. Notice display in their Milwaukee street show window.

SEVERAL WITNESSES Tell of the Day Crouse Was Hurt.

The question of the weather was the important one in the circuit court today in the case of George B. Crouse vs. the C. A. N. W. road. From the opening of court till late in the day the testimony offered concerned the weather at the time of the accident. The witnesses called this morning were W. M. Wilson, G. J. Kellogg and John J. Edwards.

In the matter of the estate of Anna Lynch deceased the court on the reading and filing of the affidavit of U. Lynch and on motion of J. J. Cunningham, attorney for the petitioner, it was ordered that the appeal be dismissed and that the clerk of the court transmit to the county court the record in said case.

## D. J. LUBY DENIES ALL THE CHARGES

### ANSWERS THE COMPLAINT OF HIS PARTNER.

Asks Such Action As Is Just, and Wants the Partnership Wound Up—Text of the Document Which Is Now On File In the Circuit Court.

D. J. Luby, of the firm of Bennett & Luby, has filed his answer to the complaint made by C. C. Bennett, in the circuit court. It is as follows:

"Chester C. Bennett, plaintiff, vs. Daniel J. Luby, defendant.

"The defendant for answer to the complaint of the plaintiff above named by Dunwiddie & Wheeler, his attorneys, alleges and shows into the court:

"First: That he admits that on or about the twenty-sixth day of March, A. D., 1897, he entered into copartnership with the plaintiff in the business or trade of buying, selling and dealing in boots and shoes, at the city of Janesville, Rock county, Wisconsin, under the firm name of Bennett & Luby.

"Second: Defendant further answering, denies each and every allegation in said complaint. Defendant further answering alleges and shows unto the court that from the time that he entered into said copartnership, he in all things and in all respects conducted himself honorably and uprightly, and performed his part of the partnership agreement entered into between himself and the said plaintiff.

"That he never at any time or under any circumstances appropriated to his own use a single dollar of the receipts or profits of said partnership business, except that he drew out for personal expenses, which were duly entered upon the books of the said copartnership, and that he never sold any of the partnership property on credit and neglected to charge the same on the account books of the partnership, intending to collect the same and appropriate the money to his own use. That the said plaintiff has no just cause or ground for making the charges that are made in the complaint herein, and that the same is wholly unfounded and unjustifiable.

"That by reason of the unwarranted charges made in the complaint of the plaintiff, and the action he has taken, this defendant desires to have the said copartnership dissolved and the stock of goods belonging to himself and the said plaintiff disposed of and the partnership matters settled up.

"Wherefore, defendant asks judgment that said copartnership may be dissolved; that an account be taken of all the said copartnership dealings and transactions from the commencement thereof and that the property of the said copartnership be sold, the copartnership debts and liabilities be paid off and the surplus, if any, divided between the plaintiff and this defendant according to their respective rights and for such other and further relief as may be just, together with defendant's costs and disbursements.

Dunwiddie & Wheeler, Defendants Attorneys.

State of Wisconsin, Rock County, S. S.—Daniel J. Luby, being first duly sworn, deposes and says that he is the defendant in the above entitled action; that he has read the foregoing answer, known the contents thereof, and that the same is true of his own knowledge."

SUBSCRIBED and sworn to before me, this thirteenth day of November, A. D., 1897. B. F. Dunwiddie, Notary Public for Wisconsin.

SCORES OF SUNDAY SKATERS

Gas Pond Proved a Most Favored Skating Spot Yesterday

One would not have realized that yesterday was Sunday if they had been in the vicinity of the gas pond for skaters were out by the score. A few of the more daring ones ventured on certain parts of the river where the ice seemed safe but danger lurks in the thin ice at this season of the year, and parents will do well to caution their children not to be too venturesome. Four drownings have already taken place in the state this season by the treachery of unseasonable ice. Local hardware merchants report a brisk demand for both ladies and gentlemen's skates of a medium price and grade.

SNEAK THIEVES AT WORK

Break Into the Basement of the Plating Company.

Sneak thieves Sunday afternoon, or sometime during the night, entered the basement in the Woodruff buckle factory and stole several articles of value belonging to the Janesville Plating Co. The theft was reported to the police this morning and the matter is being investigated. Among the articles stolen was a revolver, lantern and several tools. The police think that it is the work of boys.

A knock down argument is the final piece of logic used by Nature. Many people lean on the "don't hurt me" theory about coffee and tobacco until the beautiful machinery of the body collapses. Postum Food Coffee is the way out of trouble.

WRIGHT FOR CHEAPER RATES

Janesville Man Has An Article In the Chicago Sunday Tribune.

In the Chicago Tribune of yesterday was an article from the pen of J. T. Wright of this city referring to excursion rates on the railroads between Janesville and Chicago. Mr. Wright said that the roads were not offering enough excursion rates from this city and that if excursions were more frequent travel would be heavier. He also favored the sale of the 1,000 mile book which gave to the purchaser a rate the year round of two cents a mile.

## NEW BANK NOT OPEN AS WAS PROMISED

### INJUNCTION STOPS PLAN AT EDGERTON.

Some of the Depositors Who Think the Property Is Worth More Than the Sum Asked, Hurry to Janesville and Get the Necessary Legal Documents.

Edgerton's newly formed bank failed to open up for business this morning as was announced.

An injunction was served against the officers and directors of the newly organized institution Saturday afternoon, restraining them from taking possession of the Bank of Edgerton building.

The injunction, it is said, was sworn out on the grounds that the bank property as ordered sold by the court is offered too cheap at \$12,000 and that the depositors of the old bank prefer to have the present tangle straightened out before any new bank is allowed to solicit their business.

On these grounds the injunction was asked and all plans for the present are blocked.

Stockholders in the newly formed bank to be known as the Tobacco Exchange Bank, met at Edgerton Saturday, and elected the following officers:

President—Andrew Jensen.

Vice President—Willard S. Heddles.

Cashier—W. S. Brown.

Bookkeeper—Willard North.

Directors—Alexander White, O. G. Biederman, Edward L. Shepard and W. A. Shelley.

After the election of officers plans were made to open for business. Committees were appointed to carry out their part of the proposed purchase, so that by Monday morning there would be no hitch in the matter. As soon as the election of officers was over, and as soon as the Edgerton people were aware of the fact that the newly organized bank meant business, those opposed to the plan got to work. On the late afternoon train several interested parties accompanied by their attorneys, arrived in Janesville to get the injunction.

J. P. Towne, president of the former Bank of Edgerton, arrived in town on the morning train, being called here by injunction matters.

## WINTER WARDROBES.

Plaid Cloaking For Redingotes, Jackets and Golf Capes.

For tailor made redingotes, jackets and golf capes heavy plaid cloaking in various patterns and colorings is largely used. This is frequently finished with a self made fringe, quite plain—that is, without

BALL COSTUME.

knots or balls, the tints of the plaid being combined in it. Plain cloaking with a plaid reverse is also used and requires no lining.

For tailor made costumes intended for hard, general service, besides the plain cloths of various weights and all colors, there are ribbed and striped goods, including worsted corduroy cloths, which are extremely durable.

Velvet corduroy and plain velveteen in bright and dark colors compose very warm separate bodices of the shirt waist variety and are winning great popularity because of their serviceable quality.

Silk and wool mixed crepons having embossed floral patterns are among the newest materials. They are somewhat expensive, but very pretty, and appear in all black and in color combined with black.

Gauze embroidered with spangles in various designs is to be had in all tints for evening bodices and gowns. It is made up over a lining of silk of the same color or a color which will be harmonious.

Transparent and semitransparent materials are extensively employed for ball gowns. A picture is given of an evening costume having a plaited skirt of white crepe de chine decorated with applications of lace and hung over a lower skirt of white satin. The low cut bodice, which is crossed diagonally in front, is of sky blue satin embroidered and spangled with steel. The minute sleeves are scarcely more than puffed shoulder straps and are fastened to the bodice by diamond buttons. The belt, which is tied at the side, is of peacock blue velvet fastened by a diamond buckle. The gloves are of bluish pink glace kid. JUDIC CHOLLET.

## THE FASHION.

Elephant Leather—A Handsome Hat—The New Skirts.

Elephant leather is the latest novelty for fine pocketbooks, cardcases, belts and small bags. It has a rough, irregularly ribbed surface and comes in beautifully

CLOTH COSTUME.

soft shades of gray and light brown. Articles made of it are very expensive, and the pocketbooks and cardcases are often heavily mounted in silver and gold.

The love for bright colors is still conspicuously indulged. Many daring combinations are seen, especially in millinery, one of the prettiest and most effective being exhibited in a toque of pale blue velvet trimmed with salmon pink chrysanthemums and black ornaments.

Union underflannels, which used to be so expensive and so hard to find, are now kept in stock by all the large dry goods shops and are reasonable in price. They are much more comfortable and less clumsy than the two piece suits of underflannels.

Skirts are much less rigid and are close at the front and sides, all the fullness being concentrated at the back. Very little or no stiffening is used around the foot, the skirt being lined substantially throughout instead with heavy silk, alpaca or moreen.

The blouse bodice occupies the foremost place this winter and is seen everywhere, with or without basques. The blouse fashion affects everything, from street jackets to ball gowns.

The picture illustrates a costume of French blue cloth. At the top each side of the bodice is adorned with a tab of moss green velvet outlined with gold cord and crossed by cord fastened with gold buttons. The blouse bodice forms two box plaits before and behind, trimmed with green velvet and cord, like the skirt. The plastron, back and front, is of moss green velvet, as are the belt and collar. The sleeves of blue cloth are decorated to match the bodice and have frills of green velvet at the wrists. JUDIC CHOLLET.

## FRENCH FASHIONS.

Newly Notes of Various Minor Articles of Dress.

Hats of violet or blue velvet very frank in tone are sometimes worn with gowns of quite a different color in Paris and the effect is rather startling. More pleas-

DINNER GOWN.

ing are large hats of pale gray felt, loaded with ostrich plumes and draped with colored velvet. These accompany almost any outfit satisfactorily.

Fur trims dinner and reception gowns, as well as street costumes, and toques all of fur are a novelty or, rather, an old fashion revived. They are very small, because when large they are too suggestive of a drum major's imposing headgear. The toque is lifted slightly at the side and rimmed with ostrich tips or quills.

Vigornes, poplins and silk and wool toques are in great demand.

White gloves are less worn, and this is a pleasant fact to chronicle, for they are most unbecoming, besides being expensive in account of the need of constant renewal. Pearl gray, putty color, dark cream and light suede are now the favorite tints in Paris.

Jackets are the preferred outer garment or young girls this winter in spite of the variety of capes, pelerines, redingotes and jacket wraps seen. Blouse jackets and ordinary jackets are adopted almost exclusively for their wear.

The cut shows a dinner gown of pink bengaline. Around the foot of the skirt are three very full plaitings of pink mousseline de soie. The bodice of bengaline is draped horizontally and has a full berth of white lace, over which is a small fichu of pink mousseline de soie bordered with dainties. The close, wrinkled sleeves are of white lace and have a lace frill at the wrists. JUDIC CHOLLET.

ELASTIC STARCH has been before the people of the United States for twenty-three years and is without doubt the greatest starch invention of the Nineteenth Century. Last year it sales reached the unprecedented number of twenty million packages. It is prepared upon scientific principles by men who have had years of practical experience in fancy laundry drying. It makes ironing easy, restores old summer dresses to their natural whiteness, and imparts to linen a beautiful and lasting finish. It is the only starch manufactured that is perfectly harmless, containing neither arsenic, alum, or any other substance injurious to linen, and can be used even as a baby powder.

A Favorite Remark - -

Of young men of limited means: If I could afford it, I'd always go to a tailor. Now a suit of clothes I make will last twice as long, and fit twice as good, as a ready made, and more than pays for itself in the satisfaction it brings. As for price: Put ours and the ready-made side by side, and it will be hard to tell them apart.

## METALIC SKYLIGHTS

at the Cost of Wood why use an old style of wooden frame skylight when you can get an iron one as cheap. Replace that old leaky skylight with a substantial one that will last as long as the walls of the building. Everything in sheet metal enters into the construction of a building. Get information on this subject and get it now by writing to H. J. SULLIVAN 33 & 40 Seventh St. MILWAUKEE, WIS.

## Warned By Smell of Smoke

The many fires of late have made people think about their insurance—the companies in which it is written, and the amount covered. The good business man does not forget that his property may go next. He does not expose himself to a crippling loss.

# A Tremendous UNDERWEAR : OFFER!

We caught up a snap in Men's Underwear last week consisting of 200 dozen shirts and drawers, wool, fleece lined. The goods are here. They retail the world over at \$2.00 a suit. We smash down the price to the unheard of figure--

## 39 cents==A Piece==39 cents

These garments are made up in the very strongest possible manner, double wrists, etc., and cannot be manufactured without a loss at 39c. We bought them cheap enough and the benefit is yours. We don't limit your purchase; you can buy as many as you please. Large line of ladies' and children's Underwear on the way, we will let you know of their arrival. It will pay every person in Rock county to keep track of The Leader sayings. It means money to them.

We cannot take time to mention prices clear through the stock, there are so many articles, and besides, the public is becoming familiar with the fact that we are the lowest priced house in Southern Wisconsin.

**Our China and Glassware** department is deserving of all praise. It's a positive fact that we carry the best assortment in the city and from the artistic standpoint we certainly lead. In this department we make same low margin of profit as in all others.

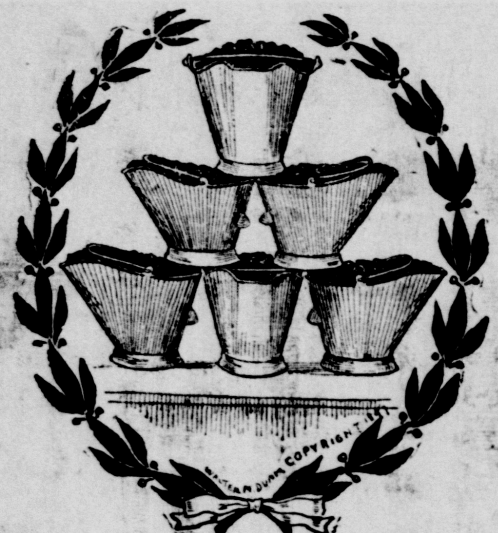

**The Few Remaining Stoves** in our store are going at about your own prices. We are forcing them out and you know it's ruinous to profit. We guarantee you a saving of 50% at least. Holiday Goods are coming every day. Our two stores are being packed to their fullest capacity. Such a display the city has never seen. You'll say so when you see the stuff.

## Time To Jog The Memory

With Christmas only a month away, the annual question of selecting suitable gifts for the holidays confronts us. Good sensible people have already thought of them, and in many cases, even this early, gifts have been selected and laid aside for the happiest occasion of the year. We wish to impress the necessity and practicability of early buying. We always do (most of us at least) swear every Xmas we will make our purchases a month, at least, in advance, the next year; but how we do forget. Most sensible thing one can do—this early buying.

### Our Stock is Larger and More Complete Than Ever Before.

Watch. A grand display of Diamonds. Hundreds of pretty articles that must be seen to be appreciated.

The Holiday goods are all in. We spent much time in making our selections. The many years we have been in business places us in a knowing position. We know what pleases people most; constant study on this point gives us a great advantage. Our Store is filled with pretty things. More beautiful Silver Novelties than can be found elsewhere in the city. The richest of Cut Glass, fancy hand decorated Imported China Pieces. Exquisite Rings, Pins and Buttons. Pretty Mantel, Clocks. Surprising what a small amount of money will buy a beautiful solid or filled Gold.

A pair of Gold Spectacles or Eye Glasses most appropriate for Xmas Gifts. You can make selections any time and our Mr. W. F. Hayes, the eye expert, will make eye tests when convenient. No charge for consultation.

## Keen Carvers

We take pride in keeping the best line of table cutlery in the city. Carver blades made as knives SHOULD BE, but as department store carvers are not, hand-forged razor steel. Handles in thirty attractive patterns.

Stove and Furnace work have kept us busy this month. Favorite Base Burners and Hermetic Favorites, their milled dampers and air tight joints, sell on sight.
